Status of the peracetic acid dossier as an active substance under the European Biocides Scheme

Brussels, 30 October 2018

The members of the Peracetic Acid Registration Group (PAR) notified peracetic acid (PAA - CAS 79-21-0; EC 201-186-8) as an active substance for the following product types as laid down in the BPD:

- PT 01: Human hygiene biocidal products,
- PT 02: Private area and public health area disinfectants and other biocidal products,
- PT 03: Veterinary hygiene biocidal products,
- PT 04: Food and feed area disinfectants,
- PT 05: Drinking water disinfectants,
- PT 06: In-can preservatives,
- PT 11: Preservatives for liquid-cooling and processing systems and
- PT 12: Slimicides.

PAR submitted three complete registration dossiers to the competent evaluating authority of Finland:

- A dossier was submitted in 2007 for equilibrium PAA for PT 1 to 6. The opinions of the Biocidal Products Committee for the approval of equilibrium PAA in PT 1 to 6 were adopted on 30 September 2015. Regulation (EU) 2016/672 approving peracetic acid as a biocidal active substance for PT 1 to 6 is accessible [here](#).

- A dossier was submitted in 2007 for PAA generated in-situ from tetra-acetylenediamine (TAED) and sodium percarbonate (SPC) for PT 2 to 4. The opinions for the approval of in-situ PAA in PT 2 to 4 were adopted on 13 December 2016. Regulation (EU) 2017/1276 approving in-situ PAA as a biocidal active substance for PT 2 to 4 is accessible [here](#).

- A dossier was submitted in 2008 for equilibrium PAA for PT 11 to 12. The opinions for the approval of equilibrium PAA in PT 11 to 12 were adopted on 14 June 2016. Regulation (EU) 2016/2290 approving peracetic acid as a biocidal active substance for PT 11 and PT 12 is accessible [here](#).
